

Topic Specific

Configuring Web Apps Using Web AppBuilder for ArcGIS

Duration: 1 Day (8 Hours)

Make custom-looking apps without custom coding.

Learn how to create intuitive, focused web apps that are accessible on desktop and mobile devices—without writing any code. This course shows how to take advantage of existing web maps, themes, and widgets to build apps that feature your organization's branding and deliver the functionality your users require.

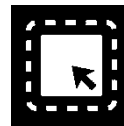

Goals

Plan a web app's design based on the audience and required functionality

Configure themes and widgets to meet web app requirements.

Evaluate web app design and functionality on virtual devices.

Publish a web app

Who should attend?

GIS analysts and Specialists

Suggestion

Completion of **Creating and Sharing GIS Content with ArcGIS Online** or equivalent knowledge.
